

3M™ Super Close Projection System SCP712

PRELIMINARY SPECIFICATIONS

Modular Design

Designed with a modular “build what you need” concept, the 3M SCP712 gives you the benefit of the 3M Vikuiti™ Super Close Projection Technology with the flexibility of the basic VGA and USB connections, all the way up to a fully integrated system that can turn a standard whiteboard into an interactive annotation system.

- Less Costly to install than ceiling mounted projectors.
- Virtually eliminates distracting shadows.
- Interactive option can save space and budget in the classroom by utilizing a standard dry erase board.

A complete solution: the 3M™ Super Close Projection System SCP712 on the 3M™ Folding Wall Mount with speakers. Two additional mounting options available.

XGA Projector with 3M™ Vikuiti™ Super Close Projection delivers large images close to the screen and virtually eliminates distracting shadows while annotating.

I/O Module: add full connectivity with the multiple inputs/outputs of the I/O Module.

Annotation: add the 3M™ Electronic Whiteboard Sensor to an existing whiteboard to create an interactive whiteboard solution.
