Integrated Projector | Erasable Write-on Screen | Powerful Speakers

3M Digital WallDisplay is an excellent alternative to projector installations, flat panel displays, and digital whiteboards. Integrating two commonly used meeting room tools of a digital projector and dry erase board, 3M Digital WallDisplay allows you to communicate effectively and easily.

- No need to worry about tracking down and setting up your meeting equipment again.
- Get a perfectly focused image virtually everytime with the press of a button.
- Easy computer and video connections.
- No glare, no distorted images, presenting has never been so easy.

Get even more and take your presentations to a whole new level with the Digital WallDisplay 9200IC and 9200IW!

- Full digital whiteboard capabilities.
- Remote collaboration for video conferencing.
- Draw, highlight, save, and distribute electronic presentations locally or around the world.
- Ultimate in presentation and communications!

* See product packaging for specific terms and conditions related to the warranty.
